DETAILED ACTION

This action is in response to the Amendment filed on April 18, 2003.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 6-28 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Francovick.

As per claims 1-4, 6-28, Frankovic is deemed to meet the claimed limitations as claimed. Frankovic discloses a system capable of awarding additional prizes to poker machine players. Frankovic discloses a random payment awarding apparatus for connection to a plurality of poker machines, each adapted to produce an incrementing signal at each operation, said apparatus including means to generate and store a random number within a predetermined range; counting means adapted to increment through the numbers in said range and responsive to incrementing signals from each said poker machine; comparator means to compare random number and the number held in said counting means, a display means to display a number held in said counting means after each increment and/or a prize award indication. See the whole patent.

Response to Arguments

Applicant's arguments are commensurate to the scope of its invention. After extensive review of the instant application, the Examiner notes that the word bonus game is misused throughout the specification. The Examiner is suggesting the term "bonus value" or bonus amount" to replace the term "bonus game". As understood, there is only one game disclosed and the bonus game, as called, is nothing but a value that is awarded upon a counting of predetermined events. The player whose machine causes the value to increment over a predetermined amount gets the bonus. There is no 2nd game being played by the player. Page 3, lines 28-33 of the specification recites "main game" and "bonus game". Examiner is requesting clarification for these two terms because prior to this paragraph there was no citation of "main game" or "bonus game".

Conclusion

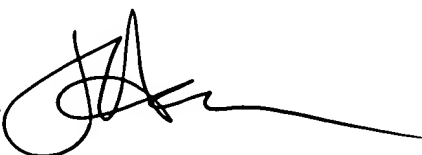

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yveste G. Cherubin whose telephone number is (703) 306-3027. The examiner can normally be reached on 9:30 - 6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, T. Walberg can be reached on (703) 308-1327. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-2159.
